Science	Sc1/2.2a identify and name a variety of common animals including, fish, amphibians, reptiles, birds and mammals Sc1/1.4 identifying and classifying L.O. I can identify and name some common animals. Outcome After observing around the school grounds, children Identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals.	Sc1/2.2c describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals including pets) Sc1/1.4 identifying and classifying L.O. I can describe and compare the structure of a variety of common animals. Outcome Children find the similarities and differences between animals of the same group, recording their ideas either pictures or writing.	Sc1/2.2b identify and name a variety of common animals that are carnivores, herbivores and omnivores Sc1/1.4 identifying and classifying L.O. I can identify, name and sort animals that are herbivores, carnivores and omnivores. Outcome Children sort animals according to diet.	Sc1/2.2d identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense. Sc1/1.4 identifying and classifying L.O. To name, identify and label the parts of the human body. Outcome Children draw, label parts of the body and write about and write about their functions.	Sc1/2.2d identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense. Sc1/1.3 performing simple tests L.O. To name the five senses and to perform simple tests to find out more about them. Outcome Children explore a variety of objects using their senses.	Sc1/2.2c describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals including pets) Sc1/1.4 identifying and classifying L.O. To sort animals according to criteria. Outcome Children sort animals using their own criteria.
