

Healthy Teeth

Dear Parent/Carer,

This term our School Council have been trying to make children in our school aware of the importance of keeping our teeth healthy. Tooth decay is a problem facing many children but in the area around Lowfield School, tooth decay in small children is twice the city average.

The School Council ran a competition asking children to design a poster explaining why healthy teeth are so important. We had well over 100 entries from Years 1 to 6 and the winners were awarded prizes. If you want to see the winning poster, designed by Ariba Naveed, then take a look on our school website. In Reception, children were able to swap their old tooth brush for a brand new one to help them to understand that using a good toothbrush is really important.

The reason that we are sending you this letter is that research shows us that our grown ups are the most important people to help us brush twice a day and keep our teeth. Please help your child to keep their teeth clean and healthy and encourage them to brush regularly.

Yours sincerely

Lowfield School Council
